2 Introduction

An increasing demand of courseworks and handouts lead to the outbreak and increase on the number of stationaries in makerere. This has helped students to reduce on the costs of transportation to access basic services provided by stationaries which were located in city centers. Stationaries are increasing in makerere as their challenges increase.

3 Problem Statement

The rise of complaints from unsatisfied students clearly shows that there is an uncertain performance among the stationary workers.

4 Main Objective

To identify the challenges faced by stationaries in makerere university.

4.1 Other objectives

To clearly identify the nature of the challenges whether they are administrative or social.

To find out how these stationaries have tried to handle the problems affecting them.

5 Hypotheses

Ho: Statinaary challenges are independent of the social, demographic and economic factors among the university administration.

6 Significance of the study.

The study will provide insight to the challenges faced by stationaries owners and identify suitable solutions to the challenges that affect stationaries in makerere.

7 Scope of study

my study was based on the challenges faced by stationries owners in makerere university.

8 Methodology

My main source of data was primary data that was collected using the following methods: Observation and personal interviews.

The variables under study included the number of years the operators have worked in their respective locations, the challenges they face and the space they occupy.

8.1 Research Methods

8.1.1 Observation

This included capturing of images my android phonem, observing and recording the spaces they occupy in the respective locations.

8.1.2 Personal Interviews

This involved interactions with the stationaries operators and capturing the responses.

9 Conclusion

The challenges faced by stationaries operators in makerere university are independent of the social and economic factors among the university administration. They iclude: Limited space, noise from students, competition among rival operators, unstable power supply, high rent charges. If these problems are taken care of the services provided by the stationaries in makerere will surely be improved.
